Page 1 of 4 (47 items)

1. Sitecore Ribbon.
2. "Control Points" chunk with "Restore" button and controls to set date frame.
3. "Operations" chunk with "Delete" and "Empty" buttons.
4. "View" chunk contains button "Refresh".
5. "Restore" button which restores data from the Control Point.
6. "Date Frame" control which allows setting date time frame to filter Control Points on.
7. "Delete" button which deletes the selected control points.
8. "Empty" button which empties the Changes Tracker archive (removes all archive entries)
9. "Refresh" button which refreshes the grid.
10. "Grid". with Control Points. ComponentArt Grid should be used for this purpose. The grid should show data filtered by date frame which is set by "Date Frame" control.
11. Standard area of ComponentArt Grid which should allow grouping grid data by some column (the column should be dragged from grid to this area).
12. Standard control of ComponentArt grid which provides paging functionality for the Grid".
13. "Review" which opens corresponding Compare Items application. Please refer to the Chapter 5.2 of the Specification document.
14. Standard Search control of the ComponentArt Grid which should allow searching for some specific control point
