1. License

1.1 The Company is licensing Licensee the quantity of Hardware set forth on the order page upon the terms and conditions of this Agreement. The license set forth herein is subject to receipt of payment as set forth on the order page. You are responsible and are being billed for the shipping fees, insurance customs, taxes and duties for shipment of the Hardware and Software.

1.2 Subject to the terms and conditions of this Agreement, the Company grants You a limited, non-exclusive, non-transferable, non-sublicensable license to use the Hardware, Software and Documentation to (a) run NeuroSky-approved applications, and (b) to develop applications (“**User Applications**”) and algorithms (“**User**

Algorithms”) that are designed to run using the Products and the Algorithms and are only operable with the Products and the NeuroSky Algorithms. To the extent the User Applications incorporate or practice any patent of other intellectual property right of the Company or that the User Algorithms were developed through use of the Hardware and Software, this license does not include the right for the User Applications or the User Algorithms or any portion thereof, to interface with, process or otherwise act upon data generated by any products, software, algorithms or technology other than the Products and the NeuroSky Algorithms.

1.3 Neither the User Applications nor the User Algorithms may be enabled or used for operation with any biosignal sensor devices or with any biosignal sensor algorithms other than (a) Products or NeuroSky Algorithms that are obtained or licensed from the Company, provided, that the foregoing shall not restrict use of other sensor devices or algorithms in a multi-mode biosignal environment so long as Products or NeuroSky Algorithms are utilized; or (b) Products or NeuroSky Algorithms that are obtained or licensed from another entity specifically authorized by the Company to provide the Products or NeuroSky Algorithms. The preceding prohibition applies to any use, including for non-commercial, internal uses. For purposes of clarification, User Applications and the User Algorithms shall not be deemed to include applications or algorithms developed by You without use of the Hardware or Software.

1.4 You may copy the Software, the Guide and the Documentation only to the extent necessary for Your authorized use of the Hardware and Software, and for archival and backup purposes, provided that You will at all times and in each instance, reproduce all copyright notices and proprietary legends on each copy in the same manner as such notices and legends appear on the original. You shall not (and shall not allow any third party to) copy (except as provided in the preceding sentence), modify, reverse engineer, reverse assemble, disassemble, or decompile the Products, the Hardware, the Software or the NeuroSky Algorithms or any part thereof or otherwise attempt to discover any source code, or sell, assign, sublicense, grant a security interest in or otherwise transfer any right in or to the Products, the Hardware, the Software or the NeuroSky Algorithms. You shall not modify the Products, the Hardware, the Software or the NeuroSky Algorithms in any manner or form, except as provided in the User Guide. You shall not (and shall not allow any third party to) create derivative works of the Hardware, the Software or the NeuroSky Algorithms or any part thereof. The prohibition in the preceding sentence shall not restrict You from writing User Applications that link to or incorporate the libraries included in the Software.

1.5 You shall not use the Hardware or Software, or develop User Applications or User Algorithms, for any illegal use, or use as components in life support or safety devices or systems, or military or nuclear applications, or for any other application in which the failure of the Hardware, Software, User Applications or the User Algorithms could create a situation where personal injury or death may occur.

1.6 Except as expressly provided in this Agreement, all rights to the Company’s intellectual property are specifically reserved, and in no event shall You acquire any other rights or licenses, implied or otherwise, by virtue of this Agreement. Without restricting the previous sentence, nothing herein shall be construed as a right or license to make, have made, use, sell, offer to sell, import, lease or distribute any products or technology related to the Products, the Hardware, the Software or the NeuroSky Algorithms, or to use any name, identifier, trademark, trade name, service mark or other designation of the Company.

1.7 The Products, the NeuroSky Algorithms, Hardware, Software, and Guide and any accompanying or related documentation, including technical data, delivered as related to this Agreement are commercial within the meaning of Federal Acquisition Regulation (“**FAR**”) 2.101 and any supplement thereto. Each item mentioned in this paragraph was fully developed at private expense. If the user or licensee of the commercial items mentioned herein is an agency, department, or other entity of the United States Government (“**Government**”), the use, duplication, reproduction, release, modification, disclosure, or transfer of such item (“**use**”), or any related documentation of any kind, including technical data, is restricted by the terms and conditions of this Agreement.

Further, Software and NeuroSky Algorithms, or any other software delivered as related to this Agreement are considered commercial computer software and as such, in accordance with FAR 12.212 and Defense Federal Acquisition Regulation 227.7202, use is further restricted in accordance with the terms that govern the license of these software products made commercially available other than through this Agreement, if different from this Agreement.

No rights are conferred other than as mentioned herein. All other use is prohibited. The terms and conditions of this paragraph shall accompany and apply to any sale or transfer of any item mentioned herein by Licensee to the Government.

1.8 If You are participating in the Developer Support Program, the terms of such program are set forth in Exhibit A.

Notices shall be made first to You at the email address you provided pursuant to Your License of the Hardware, Software and Documentation, and to the Company at support@neurosky.com, and shall be deemed delivered upon delivery to such email address, unless the party sending notice is unable to deliver to such email address two (2) consecutive times, in which notice must be made to the shipment address provided by You, or to the Company at the address listed on this website, which shall be deemed delivered with proof of delivery to such postal address.

7.3 In the event that any provision of this Agreement or the application thereof, becomes or is declared by a court of competent jurisdiction to be illegal, void or unenforceable, the remainder of this Agreement will continue in full force and effect and the application of such provision to other persons or circumstances will be interpreted so as reasonably to effect the intent of the parties hereto. The parties further agree to replace such void or unenforceable provision of this Agreement with a valid and enforceable provision that will achieve, to the extent possible, the economic, business and other purposes of such void or unenforceable provision.

7.5 The parties agree that any and all disputes or controversies of any nature between them arising at any time shall be determined by binding arbitration in accordance with the Commercial Arbitration Rules of the AAA before a single neutral arbitrator ("**Arbitrator**") in the State of California, county of Santa Clara. The Arbitrator shall be mutually agreed upon by the parties; if the parties are unable to agree on an Arbitrator, the Arbitrator shall be appointed by the AAA. The Arbitrator shall determine how all expenses relating to the arbitration shall be paid, including without limitation, the respective expenses of each party, the fees of the arbitrator and the administrative fee of the American Arbitration Association. Any final outcome of such arbitration shall be final and binding as to all matters of substance and procedure, and may be enforced by a petition to any court of competent jurisdiction located in the State of California, which may be made ex parte, for confirmation and enforcement of the award. In addition, either party may seek equitable, non-monetary relief at any time in any court of competent jurisdiction located in the State of California without thereby waiving its right to arbitration of any dispute or controversy. All proceedings shall, to the extent permitted by law, be closed to the public and confidential and all records relating thereto shall be permanently sealed, except as necessary to obtain court confirmation of the arbitration award.

7.6 This Agreement, Exhibit A, the order page and the terms and conditions and documents and instruments and other agreements among the parties hereto referenced herein: (a) constitute the entire agreement among the parties with respect to the subject matter hereof and supersede all prior agreements and understandings both written and oral, among the parties with respect to the subject matter hereof; and (b) are not intended to confer upon any other person any rights or remedies hereunder.

7.7 This Agreement shall be governed by and construed in accordance with the laws of the State of California, regardless of the laws that might otherwise govern under applicable principles of conflicts of laws thereof. The United Nations Convention on Contracts for the International Sale of Goods does not apply to this Agreement, and the parties disclaim application of the Uniform Computer Information Transactions Act to the maximum extent permissible.

7.8 In any action, proceeding or arbitration to enforce or construe this Agreement, in addition to any other remedies, the Company, if the prevailing party, shall be entitled to recover its reasonable costs and expenses, including attorney's, consultant's and expert's fees and costs.

7.9 Neither party may assign its rights or obligations under this Agreement either in whole or in part without the prior written consent of the other party; provided, that such consent shall not be required if the Company assigns its rights and obligations to an assignee that acquires all or substantially all of such party's stock or assets. Any attempted assignment in violation of the foregoing shall be void. The rights and obligations of the parties shall be binding upon and inure to the benefit of the parties and their respective heirs, representatives, successors and permitted assigns.

7.10 Neither party shall be liable under this Agreement for delays, failures to perform, damages, losses or destruction, or malfunction of equipment, or any consequence thereof, caused or occasioned by, or due to fire, earthquake, flood, water, the elements, labor disputes or shortages, utility curtailments, power failures, explosions, civil disturbances, perils of the air, public enemies, war, riots, strikes, weather conditions, mechanical delay or failure of truck, aircraft or other equipment, governmental actions, shortages of equipment or supplies, acts or omissions of third parties, failure of the Internet or any other cause beyond its reasonable control.
